

ADDITIONAL OPTIONS

CORRESPONDING PHOTO FILE ATTACHED

1. Light Bar – when rigging lights on the existing upstage roof beam, they end up behind your backdrop, and exposed to rain. This bar cantilever's in and out with the roof panel and is 16" inward to eliminate this issue. (\$1,500 per side) *
2. Extension Decks – 4x6 \$1,100 4x8 1,200. Includes jacks and hardware. Other dimensions are also available, ask for pricing.
3. Belly Box – These undercarriage lockable boxes allow quick access storage. (\$875 each)
4. Solid Rain/Wall Panel Assembly - 3 piece wrap-around with "zipper door" access on both flanks (4x8) and upstage middle (8x8). Quick release Velcro feature for "high wind" action. (2420 - \$2,850 3224 - \$3,150) *
5. Outlets – 110 duplexes in outer corners of roof panels; networked (12-S3) to belly box or motor box. (\$187.50 each)
6. Oil Hatch- easy access to the hydraulic fluid tank. Heavy duty to avoid rattle (\$250)
7. Banner Feet – (all stages except 4240) Insert in the extrusion channel of your floor or extension deck and provide easy deck level anchoring of side banners (\$370 for set of 2)
8. Shocker Hitch - Greatly reduces 'turbulence' during transport. (\$745) *
9. Wind Monitor / Mount - Anemometer mount inserts in roof beam. Cell phone data readout. (Mount with Device - \$425; Mount arm only \$54)
10. Aluminum Ramp – 1k rated - 36" usable width – 62" top service range - Overlap and chain transition – (16' \$2,365 14' \$2,265)
11. Wheel Covers – (\$425 a set)
12. **3224 ONLY PRT** (For Rigged Truss Bars) – Removable steel bars jutting outward off the roof panel beam. Provides optional rigging angle. Rated at 1k.
13. **3224 ONLY Stabilizers** – The APEX is aluminum, it might sway a little back and forth if there's an active performance (cheerleaders, dance squads) especially when the floor jacks and outrigger rams are fully extended. This support assembly eliminates those issues. (\$2,945)
